Carbon
Potentiometers
CA

 CA6

6mm carbon potentiometers with plastic housing and protection type IP 5 (dust-proof).

CA6 potentiometers are available both in through-hole and in SMD terminal configuration. The substrate in our SMD potentiometers is high temperature resistant, for reflow soldering.

Tapers available include linear, log and antilog, even for SMD potentiometers. ACP can also study special requests.

Terminals are manufactured in tinned brass to guarantee better soldering and higher resistance to corrosion. They can be provided straight or crimped (with "snap in"), which is recommended to hold the potentiometer to the board prior to the soldering operation.

Thumbwheels and shafts can be provided either separately or already inserted in the potentiometer. CA6VSMD potentiometers, with or without thumbwheel, can be requested in Bulk or Tape & Reel (T&R) packaging.

ACP's potentiometers can be adjusted from either side, both in the horizontal and the vertical adjustment types. There is a guide on the housing to simplify the manual adjusting operations.

Our potentiometers can be manufactured in a wide range of possibilities regarding:

- Resistance value.
- Tolerance.
- Tapers / variation laws of the resistive element (linear, log, antilog).
- Others on request.
- Pitch.
- Positioning of the wiper (the standard is at 50%).
- Housing and rotor color.
- Mechanical life.
- Self-extinguishable plastic parts according to UL 94 V-0.

Applications

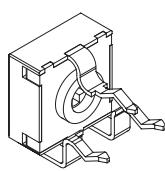

- Small electronic appliances.
- Measurement and test equipment.
- Automotive: alarms, switches
- Telecommunication equipment (antenna amplifiers and receivers, videocomm., intercomm.)
- Alarm systems.

Models

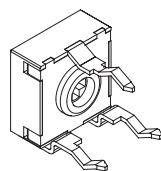

All models shown here have the standard rotor for the 6mm series, the cross (X). Models can be manufactured with any of the rotors listed on the rotor menu. The color of the housing or rotor can also be modified.

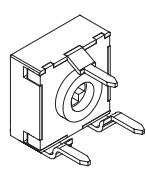

CA6 H2,5

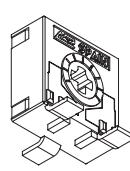

CA6 V 2,5

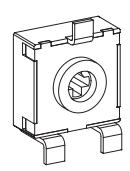

CA6 V5

CA6 VS5

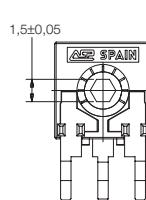

CA6 HSMD

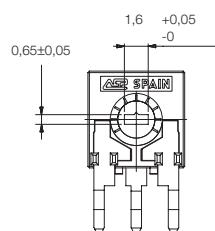

CA6 VSMD

Rotors

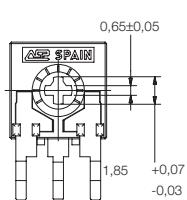

The rotor by default is the cross (X). Accessories are designed for the X rotor.

M

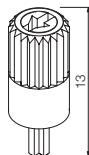

N

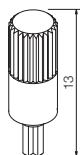

X

Shafts

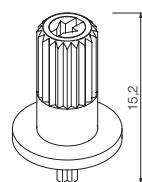

Shafts are offered in different colors. On request, they can also be provided in accordance with UL 94 V-0. Potentiometers can be supplied with shafts already inserted in. ACP can also study special shafts.

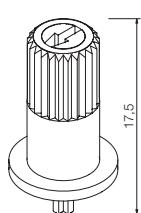

6022

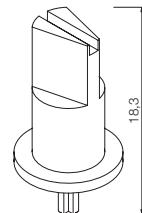

6023

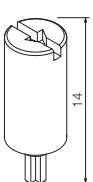

6024

6025

6028

6031

Thumbwheels

Thumbwheels are offered in different colors. On request, they can also be provided in accordance with UL 94 V-0. Potentiometers can be supplied with thumbwheels already inserted in. ACP can also study special thumbwheels.

6001

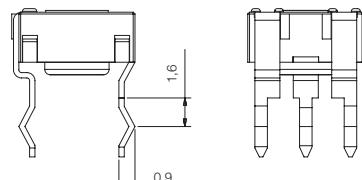

6030

6032

Terminals

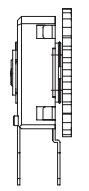

In the CA6 family, ACP will always recommend terminals with "snap in" in order to better hold the component to the board prior to soldering. (Not available for CA6VS5 model).

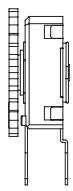

SNP

Adjustment possibilities

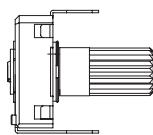

ACP's potentiometers can be adjusted through either the front side (WT) or the collector side (WTI):

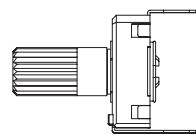

WTI
Collector side

WT
Front side

WTI
Collector side

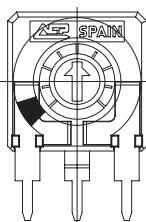

WT
Front side

Potentiometers with cut track

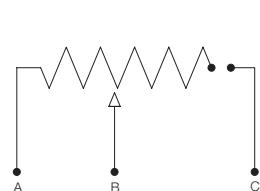

The resistive element in this potentiometer has an area with very high resistive values, resulting in an open circuit. Recommended for lighting regulation.

With cut at the beginning of the track CCW: Off-On.

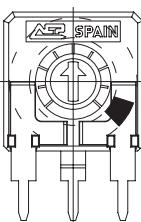

With cut at the end of track- CW: On-Off. Others positions available on request.

CCW: Off-On

CW: On-Off

Packaging

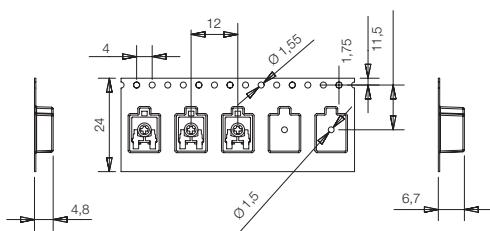

Bulk packaging: Potentiometers are first bagged and then introduced in boxes:

Potentiometer model	+ Shaft or thumbwheel inserted	Pieces per box (130 x 60 x 90)
	- (only potentiometers)	1000
H2,5 - V2,5 - V5 - VS5 - HSMD - VSMD	6001, 6030, 6032	1000
	6022, 6023, 6024, 6031	500
	6025, 6028	300

Tape and reel (T&R) packaging:

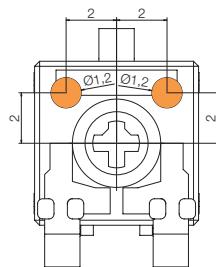

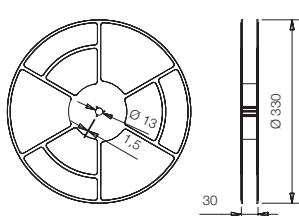

Potentiometer model	+ Shaft or thumbwheel reference	Pieces per reel
VSMD	- (only potentiometers)	1200
	6030	750

Dimensions: Reel Ø: 330mm, Tape width: 24mm

Without thumbwheel

With thumbwheel

Electric Specifications

These are standard features; other specifications can always be studied on request.

CA9

9mm carbon potentiometers with plastic housing and protection type IP 5 (dust-proof).

Standard tapers available include linear, log and antilog. ACP can also study special requests.

Terminals are manufactured in tinned brass to guarantee better soldering and higher resistance to corrosion. They can be provided straight or crimped (with "snap in"), recommended to hold the potentiometer to the board prior to the soldering operation. SMD configuration can be available on request.

Thumbwheels and shafts can be provided either separately or already inserted in the potentiometer.

ACP's potentiometers can be adjusted from either side, both in the horizontal and the vertical adjustment types. There is a guide on the housing to simplify the manual adjusting operations.

Our potentiometers can be manufactured in a wide range of possibilities regarding:

- Resistance value.
- Tolerance.
- Tapers / variation laws.
- Pitch.
- Positioning of the wiper (the standard is at 50%).
- Housing and rotor color.
- Mechanical life.
- Pause effect (up to 20 detents available).
- Self-extinguishable plastic parts according to UL 94 V-0.

Applications

- Electronic appliances: white goods, brown goods, small household appliances.
- Heating and air conditioning equipment and thermostats.
- Automotive: dimmers, climate controls, lighting regulation (position adjustment and sensing).
- Measurement and test equipment. Timers and relays.
- Multimedia.

CE9

9mm Cermet potentiometers with plastic housing and protection type IP 5 (dust-proof). Self-extinguishable according to UL 94 V-0.

Standard taper is linear. Log, Antilog and other tapers are available on request. Laser trimming equipment in-house, allowing for very low tolerances.

Terminals are manufactured in tinned brass to guarantee better soldering and higher resistance to corrosion. They can be provided straight or crimped (with "snap in"), recommended to hold the potentiometer to the board prior to the soldering operation. SMD configuration can be available on request.

Thumbwheels and shafts can be provided either separately or already inserted in the potentiometer.

ACP's potentiometers can be adjusted from either side, both in the horizontal and the vertical adjustment types. There is a guide on the housing to simplify the manual adjusting operations.

Our potentiometers can be manufactured in a wide range of possibilities regarding:

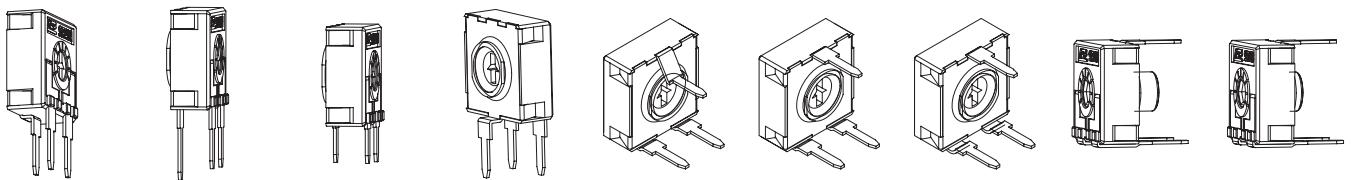

- Resistance value.
- Tolerance.
- Tapers / variation laws.
- Pitch.
- Positioning of the wiper (the standard is at 50%).
- Housing and rotor color.
- Mechanical life.
- Pause effect (up to 20 detents available).

Applications

- Electronic appliances: white goods, brown goods, small household appliances, boilers, water heaters, etc.
- Heating and air conditioning equipment and thermostats.
- Automotive: dimmers, climate controls, lighting sensors.
- Industrial electronics: multimeters, oscilloscopes, test equipment, time relay.

Models

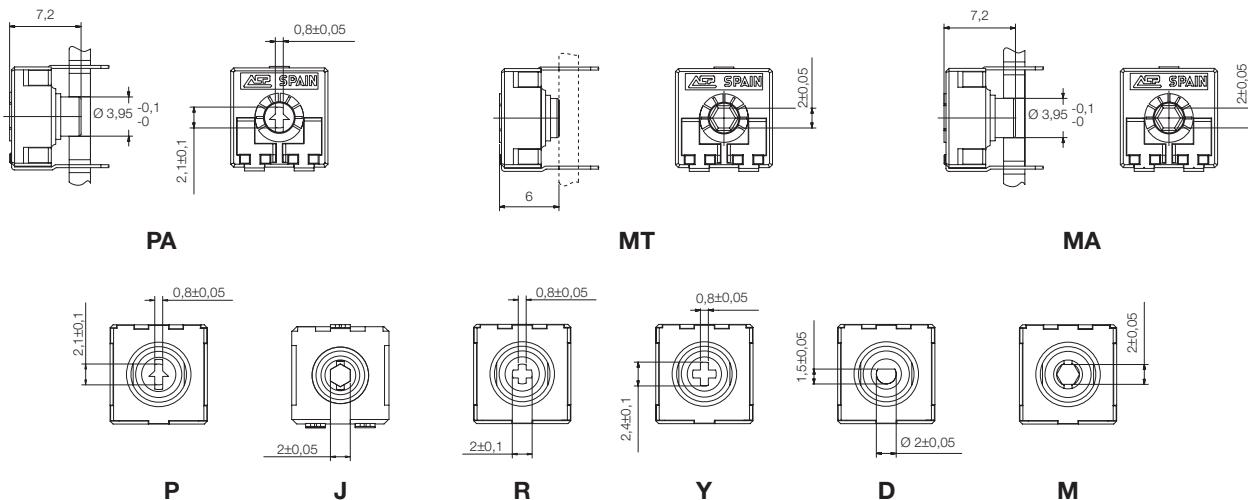

All models shown here have the standard rotor for the 9mm series, the arrow (P). Models can be manufactured with any of the rotors listed on the rotor menu. The color of the housing or rotor can also be modified. SMD configuration can be available on request.

CA9 H2,5 **CA9 H3,8** **CA9 HS3,8** **CA9 H5** **CA9 V7,5** **CA9 V10** **CA9 VR10** **CA9 MAV10** **CA9 MTV10**
CE9 H2,5 **CE9 H3,8** **CE9 HS3,8** **CE9 H5** **CE9 V7,5** **CE9 V10** **CE9 VR10** **CE9 MAV10** **CE9 MTV10**

Rotors

The rotor by default is the arrow (P). Accessories are designed for the M and J rotors, unless otherwise stated.

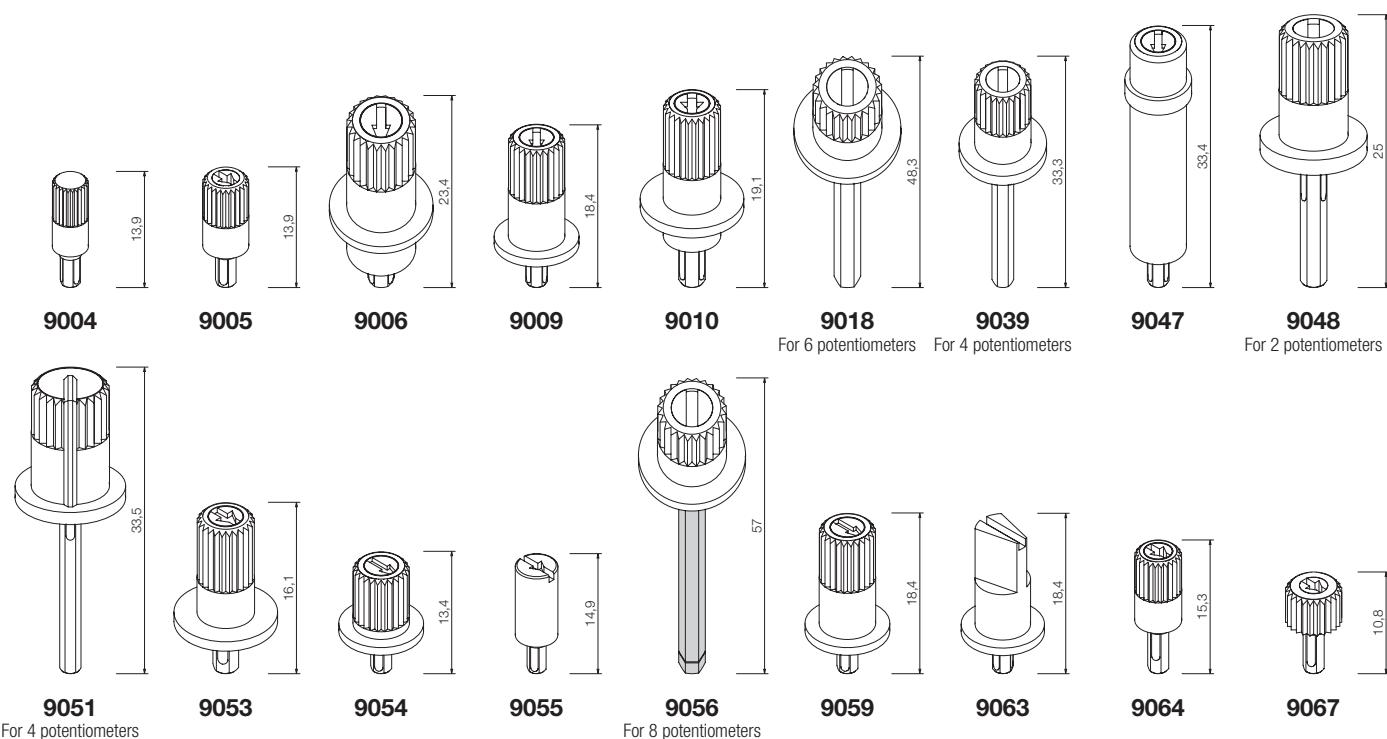

Shafts

- **CA9.** Shafts are available in different colors. On request, they can also be provided in accordance with UL 94 V-0.

Potentiometers can be supplied with shafts already inserted in. ACP can also study special shafts.

- **CE9.** Shafts in accordance with UL 94 V-0 are available in different colors.

Potentiometers can be supplied with shafts already inserted in. ACP can also study special shafts.

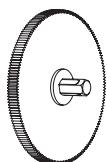

Thumbwheels

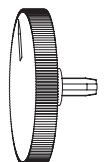

- **CA9.** Thumbwheels are available in different colors. On request, they can also be provided in accordance with UL 94 V-0. Potentiometers can be supplied with thumbwheels already inserted in. ACP can also study special requests for thumbwheels.

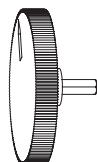

9002

9041

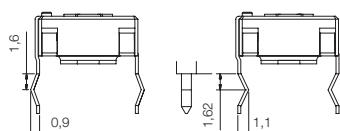

9060
For R rotor

9061

Terminals

By default, terminals are always straight for the 9mm size, as shown on the "models" menu. ACP can provide crimped terminals (with "snap in"), to better hold the component to the board prior to soldering.

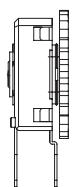

SNP

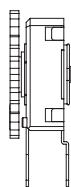

SNJ

Adjustment possibilities

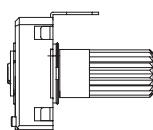

ACP's potentiometers can be adjusted through either the front side (WT) or the collector side (WTI):

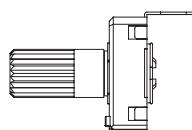

WTI
Collector side

WT
Front side

WTI
Collector side

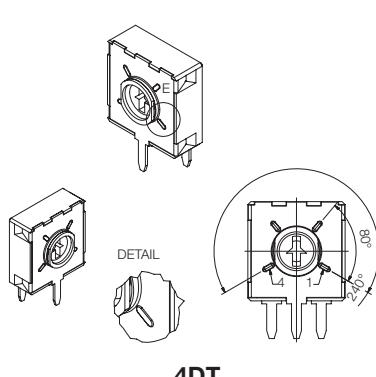

WT
Front side

Potentiometers with detents

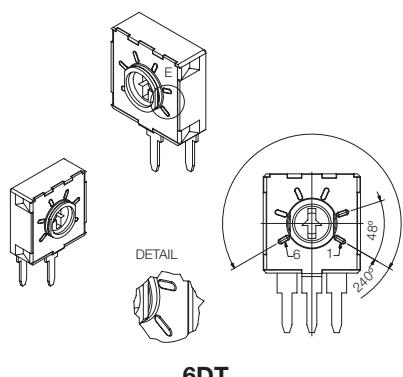

ACP's "detent" feature (DT) is specially suitable for control applications. Our patented design has improved the features of these potentiometers:

- Longer mechanical life: up to 10.000 cycles.
- More stable electrical parameters.
- Improved reliability and Contact Resistance Variation (CRV).
- Narrower tolerances for detent positioning.

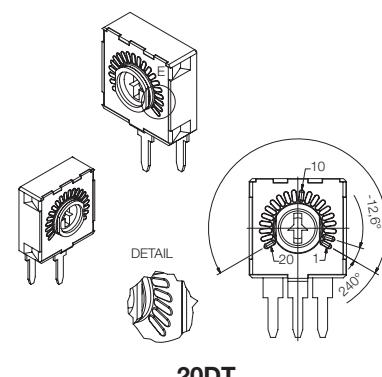

Detents can be lighter or stronger, or even a combination of both feelings. Detents can be evenly distributed along the angle (standard), or tailored to match customers' request. They can also be combined with special tapers: constant value areas, different slopes, etc. Examples: 4, 6 and 20 detents –evenly distributed–.

4DT

6DT

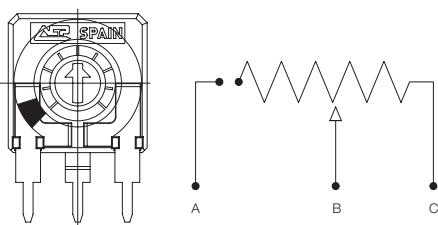

20DT

Potentiometers with cut track

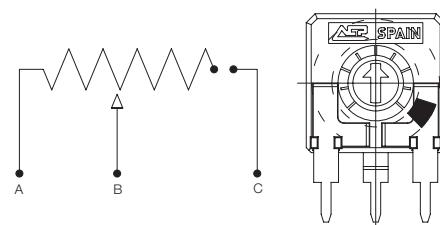

The resistive element in this potentiometer has an area with very high resistive values, resulting in an open circuit. Recommended for lighting regulation.

With cut at the beginning of the track CCW: Off-On.

With cut at the end of track CW: On-Off. Other positions available on request.

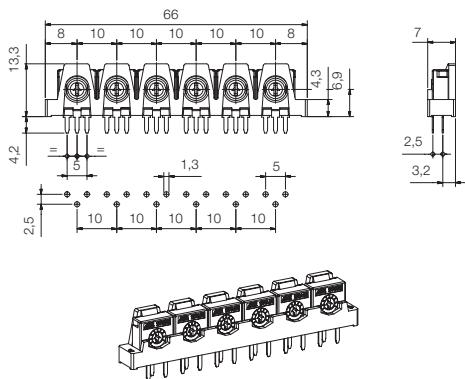

CCW: Off-On

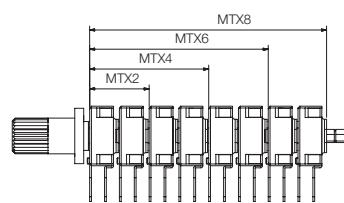

CW: On-Off

Assemblies of several potentiometers

STACKING: Set of 6 potentiometers in a plastic cover. It is used to speed up assembly and soldering process.

GANGED: Set of potentiometers in a row that allows for simultaneous adjustment of all of them through one shaft. Recommended potentiometer model is H2,5. MTX2 (2 potentiometers), MTX4 (4), MTX6 (6), MTX8 (8).

Packaging

Bulk packaging: Potentiometers are first bagged and then introduced in boxes:

Potentiometer model	+ Shaft or thumbwheel inserted	Pieces per box (130 x 60 x 90)
H2,5 - H3,8 - H5 - HS3,8 - V7,5 - V10 - VR10 MAV10* - MTV10*	- (only potentiometers)	500 (models with * : 450)
	9002	250

Carbon
Potentiometers
CA

Cermet
Potentiometers
CE

CA14

14mm carbon potentiometers with plastic housing and protection type IP 5 (dust-proof).

Standard tapers available include linear, log and antilog. ACP can also study special requests.

Terminals are manufactured in tinned brass to guarantee better soldering and higher resistance to corrosion. They can be provided straight or crimped (with "snap in"), recommended to hold the potentiometer to the board prior to the soldering operation. SMD configuration can be available on request.

Thumbwheels and shafts can be provided either separately or already inserted in the potentiometer.

ACP's potentiometers can be adjusted from either side, both in the horizontal and the vertical adjustment types. There is a guide on the housing to simplify the manual adjusting operations.

Our potentiometers can be manufactured in a wide range of possibilities regarding:

- Resistance value.
- Tolerance.
- Tapers / variation laws.
- Pitch.
- Positioning of the wiper (standard is at 50%).
- Housing and rotor color.
- Mechanical life.
- Pause effect (up to 38 detents available).
- Self-extinguishable plastic parts according to UL 94 V-0.

Applications

- Electronic appliances: white goods, brown goods, small household appliances
- Heating and air conditioning equipment and thermostats.
- Automotive: dimmers, climate controls, lighting regulation (position adjustment and sensing).
- Measurement and test equipment.

CE14

14mm cermet potentiometers with plastic housing and protection type IP 5 (dust-proof). Self-extinguishable according to UL 94 V-0.

Standard taper is linear. Log, Antilog and other tapers are available on request. Laser trimming equipment in-house, allowing for very low tolerances.

Terminals are manufactured in tinned brass to guarantee better soldering and higher resistance to corrosion. They can be provided straight or crimped (with "snap in"), recommended to hold the potentiometer to the board prior to the soldering operation. SMD configuration can be available on request.

Thumbwheels and shafts can be provided either separately or already inserted in the potentiometer.

ACP's potentiometers can be adjusted from either side, both in the horizontal and the vertical adjustment types. There is a guide on the housing to simplify the manual adjusting operations.

Our potentiometers can be manufactured in a wide range of possibilities regarding:

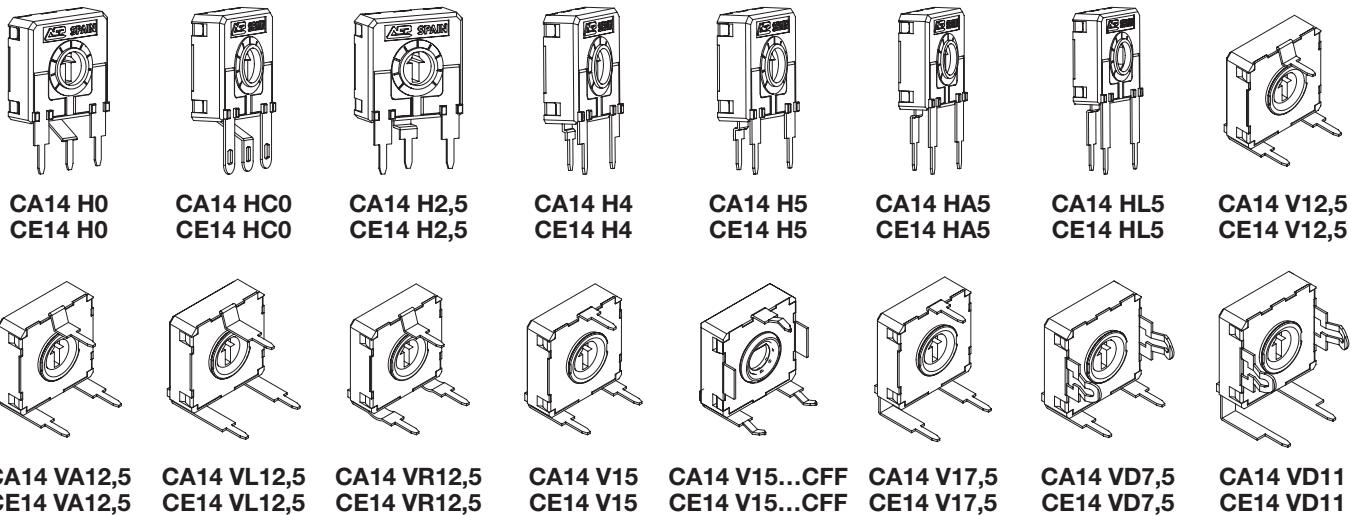

- Resistance value.
- Tolerance.
- Tapers / variation laws.
- Pitch.
- Positioning of the wiper (the standard is at 50%).
- Housing and rotor color.
- Mechanical life.
- Pause effect (up to 38 detents available).

Applications

- Electronic appliances: white goods, brown goods, small household appliances, boilers, water heaters, etc.
- Heating and air conditioning equipment and thermostats.
- Automotive: dimmers, climate controls, position sensors.
- Industrial electronic: multimeters, oscilloscopes, test equipment, time relay.

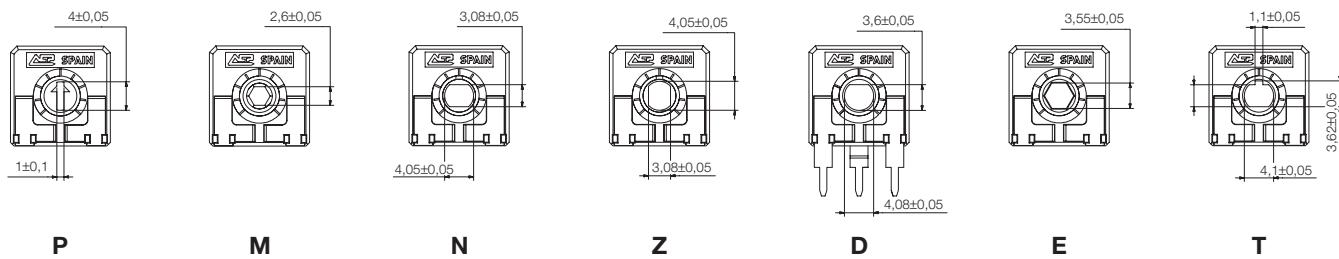

Models

All models shown here have the standard rotor for the 14mm series, the arrow (P). Models can be manufactured with any rotor listed on the rotor menu. The color of the housing or rotor can also be modified. SMD configuration can be available on request.

Rotors

The rotor by default is the arrow (P). Accessories are designed for the N, Z and T rotors, unless otherwise stated.

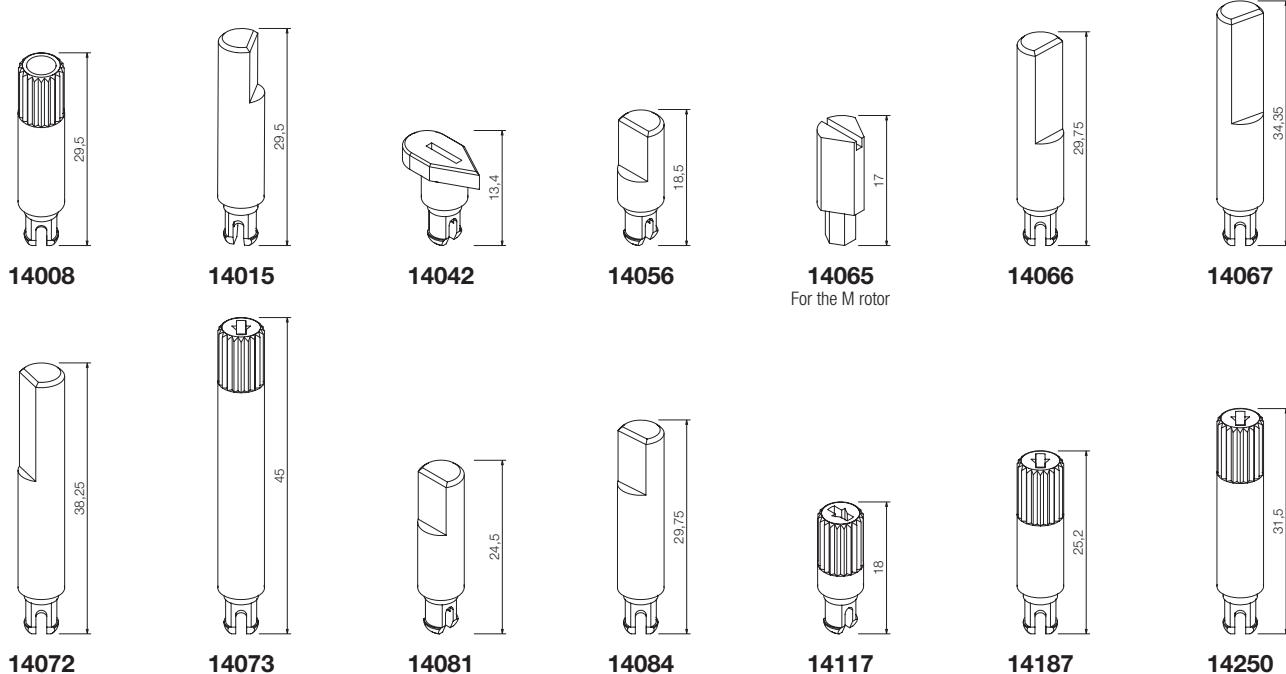

Shafts

- CA14.** Shafts are available in different colors. They can also be provided in accordance with UL 94 V-0.

Potentiometers can be supplied with shafts already inserted in. ACP can also study special shafts.

- CE14.** Shafts provided in accordance with UL 94 V-0 are available in different colors.

Potentiometers can be supplied with shafts already inserted in. ACP can also study special shafts.

Thumbwheels

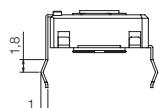

- **CA14.** This thumbwheel is available in different colors. It can also be provided in accordance with UL 94 V-0. Potentiometers can be supplied with thumbwheels already inserted in. ACP can also study special requests for thumbwheels.
- **CE14.** This thumbwheel in accordance with UL 94 V-0 is available in different colors. Potentiometers can be supplied with thumbwheels already inserted in. ACP can also study special requests for thumbwheels.

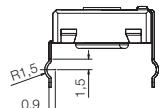

14003

Terminals

By default, terminals are always straight for the 14mm size, as shown on the "models" menu. ACP can provide crimped terminals (with "snap in"), to better hold the component to the board prior to soldering.

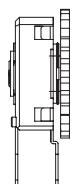

SNP

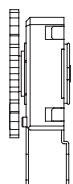

SNR

Adjustment possibilities

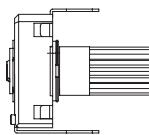

ACP's potentiometers can be adjusted through either the front side (WT) or the collector side (WTI):

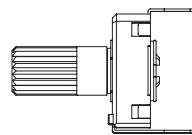

WTI
Collector side

WT
Front side

WTI
Collector side

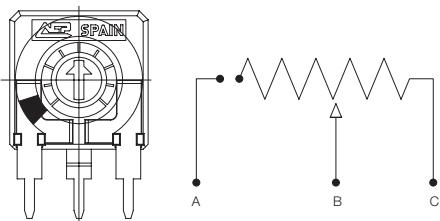

WT
Front side

Potentiometers with cut track

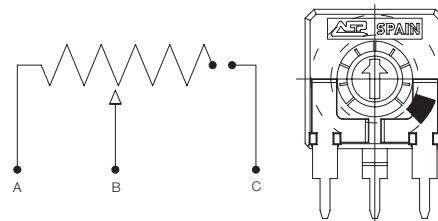

The resistive element in this potentiometer has an area with very high resistive values, resulting in an open circuit. Recommended for lighting regulation.

With cut at the beginning of the track CCW: Off-On.

With cut at the end of track- CW: On-Off. Others position available on request.

CCW: Off-On

CW: On-Off

Packaging

Bulk packaging: Potentiometers are first bagged and then introduced in boxes:

Potentiometer model	+ Shaft or thumbwheel inserted	Pieces per box (130 x 60 x 90)
H2,5 - H4 - H5 - HA5 - HL5 - HC0 - HO V12,5 - VA12,5 - VL12,5 - V15 - V17,5* - VD11* VD7,5 - VR12,5	- (only potentiometers)	200 (models with * : 150)
	14003, 14117, 14042	100
	14008, 14015, 14250, 14187, 14056, 14065 14066, 14067, 14072, 14073, 14081, 14084	75

Tape and reel (T&R) packaging will be available for SMD configurations, on request.

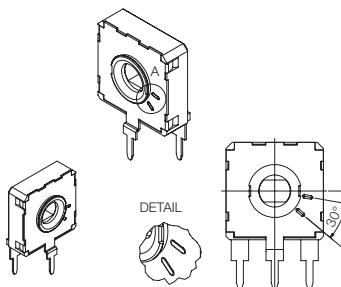

Potentiometers with detents

ACP's "detent" (DT) feature is specially suitable for control applications. Our patented design has improved the performance of these potentiometers:

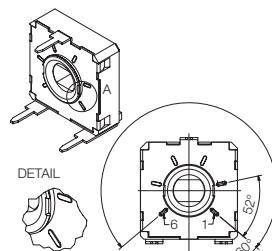

- Longer mechanical life: 10.000 cycles.
- More stable electrical parameters.
- Improved reliability and Contact Resistance Variation (CRV).
- Narrower tolerances for detent positioning.

Detents can be lighter or stronger, or even a combination of both feelings. They can also be evenly distributed along the angle (standard) or tailored to match customers' request. They can also be combined with special tapers: constant value areas, different slopes, etc.

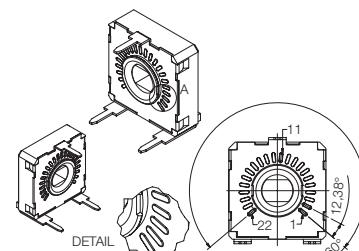

Examples:

Standard configuration

Dimensions: 14mm
 Protection:

- **CA14:** IP 5 (dust-proof)
- **CE14:** IP 5 (dust-proof). Self-extinguishable, to meet UL 94 V-0

 Substrate:

- **CA14:** Carbon technology
- **CE14:** Cermet

 Color:

- **CA14:** Blue housing with white rotor
- **CE14:** Brown housing with white rotor

 Packaging: Bulk
 Wiper position: at 50% ±15°
 Terminals: Straight, without SNAP IN.
 Marking: Resistive value marked on housing. Others on request

Customized products

A drawing is requested to order a customized product. The code assigned will include all special specifications.

Series, rotor, model and total resistive value are given before the special code: CA14PH2,5 10K CODE C00111.

1 - Series

- CA14
- CE14

3 - Model and pitch

H0	HC0	H2,5	H4	H5	HA5	HL5	V12,5
VA12,5	VL12,5	VR12,5	VD11	VD7,5	V15	V17,5	V15...CFF

HSMD and VSMD models can be available on request.

5 - Resistance value

Taper:	Lin (A)	Log (B), Antilog (C)
Value Rn	100 Ω / 100 ... / ... 5 MΩ / 5M	1KΩ / 1K ... / ... 2,2 MΩ / 2M2

Other resistive values available on request.

7 - Tolerance

100 Ω ≤ Rn ≤ 1MΩ: ±20%	2020
1 MΩ ≤ Rn ≤ 5MΩ: ±30%	3030
For out of range values: Rn > 5MΩ, tol : +50% - 30%	5030

Special tolerances available: <5% ... 10%, etc.

9 - Cut track

At beginning of track, CCW: Off - On	PCI
At end of track, CW: On - Off	PCF

11 - Crimped terminals (SNAP IN)

SNAP IN P	SNP
SNAP IN R	SNR

2 - Rotors

--------------	---	---	---	---	---	---	---

4 - Packaging

Through-hole	SMD models
Bulk	(blank)... ⁽¹⁾
T&R (Tape and reel)	(N.A.) ⁽²⁾

(1) If blank, bulk packaging is implied.

(2) N.A. - Not Available: Tape and Reel packaging is only available for SMD terminals.

6 - Resistance law / taper

Lin - Linear	A
Log - Logarithmic	B (on request for CE)
Antilog - Antilogarithmic	C (on request for CE)
- Special tapers have codes assigned:	CODE YXXXX

Please, indicate terminal position when ordering a special taper.

8 - Operating life (cycles)

Standard (1000cycles)	-(leave blank)
Long life: LV + the number of cycles. ex: LV10 for 10000 cycles ⁽¹⁾	LVXX: ex: LV10

(1) Others on request.

10 - Detents (DT)

One detent at the beginning	DTI
One detent at the end	DTF
X number of detents	XDT: 10DT

Detents readily available: 1, 2, 3, 4, 5, 6, 8, 9, 17, 22, 27, up to 38 -evenly distributed along 260°±3°.
 Others on request.

12 - Housing color

• CA14: standard is blue	
• CE14: standard is brown	
With other colors -See color chart below-, for example, red	CJ-color, ex.: CJ-RO

13 - Rotor color

Standard: white. With other colors: see color chart below RT-color; ex., red: RT-RO

14 - Wiper

Wiper position (Standard: 50% ± 15°)	(leave blank)
Initial or CCW	PI
Final or CW	PF
Others: following clock positions; at 3hours: P3H	PXH, ex: P3H
Wiper torque (Standard: <2,5Ncm)	(leave blank)
Low torque (< 1.5Ncm)	PGB

15 - Linearity

Independent linearity controlled & below x%, for example, 3%: LN3%	LNx%; ex: LN3%
Absolute linearity controlled & below x%	LAx%

16 - Potentiometers with assembled accessories

Assembled from terminal side	WT
Assembled from collector side	WTI
Accessory Reference See list of shafts and thumbwheels available	XXXXX Example: 14117
Color of shaft or thumbwheel	-YY Example, white: BA

17 - Flammability (according to UL 94 V-0)

• CA14: Not self-extinguishable	(leave blank)
Self-extinguishable according to standard UL 94 (including all plastic parts of the potentiometer: rotor, housing and accessory. If only one part needs to be V0, please, inform)	-V0
• CE14: All accessories assembled with cermet potentiometers will have the self-extinguishable property according to standard UL 94	-V0

For ordering spare accessories

Accessory reference - color- flammability. Ex. 14117-AZ-V0 is a blue self-extinguishable 14117 thumbwheel	XXXX-YY-__

MCA9

9mm carbon control potentiometers with low cost plastic enclosure and shaft and protection type IP 5 (dust-proof).

Standard tapers available include linear, log and antilog. ACP can also study special requests.

Terminals are manufactured in tinned brass to guarantee better soldering and higher resistance to corrosion. They can be provided straight or crimped (with "snap in"), recommended to hold the potentiometer to the board prior to the soldering operation. SMD configuration can be available on request.

Our potentiometers can be manufactured in a wide range of possibilities regarding:

- Resistance value.
- Tolerance.
- Tapers / variation laws.
- Pitch.
- Positioning of the wiper (the standard is at 50%).
- Housing and rotor color.
- Mechanical life.
- Pause effect (up to 20 detents available).
- Self-extinguishable plastic parts according to UL 94 V-0.

Applications

- Electronic appliances: white and brown goods, small household appliances.
- Measurement and test equipment. Timers and relays.
- Lighting regulation.

MCE9

9mm cermet control potentiometers with low cost plastic enclosure and shaft and protection type IP 5 (dust-proof). Self-extinguishable plastic parts according to UL 94 V-0.

Standard taper is linear. Log, Antilog and other tapers are available on request. Laser trimming equipment in-house, allowing for very low tolerances.

Terminals are manufactured in tinned brass to guarantee better soldering and higher resistance to corrosion. They can be provided straight or crimped (with "snap in"), recommended to hold the potentiometer to the board prior to the soldering operation. SMD configuration can be available on request.

MCA14

14mm control carbon potentiometers with low cost plastic enclosure and shaft and protection type IP 5 (dust-proof).

Standard tapers available include linear, log and antilog. ACP can also study special requests.

Terminals are manufactured in tinned brass to guarantee better soldering and higher resistance to corrosion. They can be provided straight or crimped (with "snap in"), recommended to hold the potentiometer to the board prior to the soldering operation. SMD configuration can be available on request.

Our potentiometers can be manufactured in a wide range of possibilities regarding:

- Resistance value.
- Tolerance.
- Tapers / variation laws.
- Pitch.
- Positioning of the wiper (the standard is at 50%).
- Housing, rotor or accessory color.
- Mechanical life.
- Pause effect (up to 38 detents available).
- Self-extinguishable plastic parts according to UL 94 V-0.

Applications

- Electronic appliances: white and brown goods, small household appliances.
- Measurement and test equipment.
- Lighting regulation.

MCE14

14mm control cermet potentiometers with low cost plastic enclosure and shaft and protection type IP 5 (dust-proof). Self-extinguishable plastic parts according to UL 94 V-0.

Standard taper is linear. Log, Antilog and other tapers are available on request. Laser trimming equipment in-house, allowing for very low tolerances.

Terminals are manufactured in tinned brass to guarantee better soldering and higher resistance to corrosion. They can be provided straight or crimped (with "snap in"), recommended to hold the potentiometer to the board prior to the soldering operation. SMD configuration can be available on request.

Our potentiometers can be manufactured in a wide range of possibilities regarding:

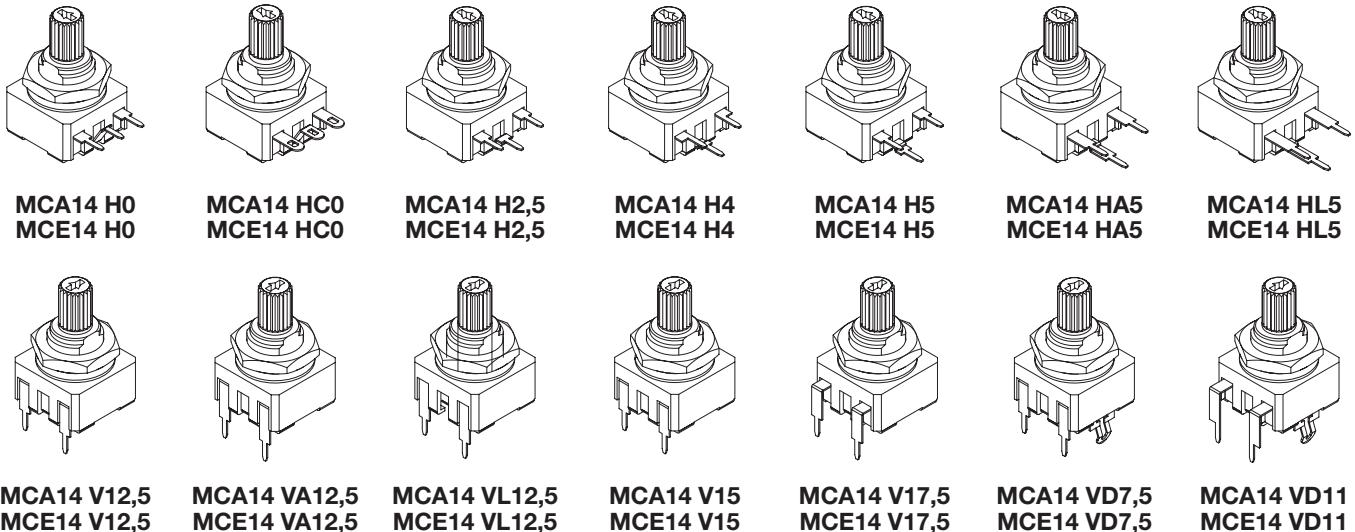

- Resistance value.
- Tolerance.
- Tapers / variation laws.
- Pitch.
- Positioning of the wiper (the standard is at 50%).
- Housing, rotor or accessory color.
- Mechanical life.
- Pause effect (up to 38 detents available).

Applications

- Electronic appliances: white and brown goods, small household appliances.
- Measurement and test equipment.
- Lighting regulation.

Models

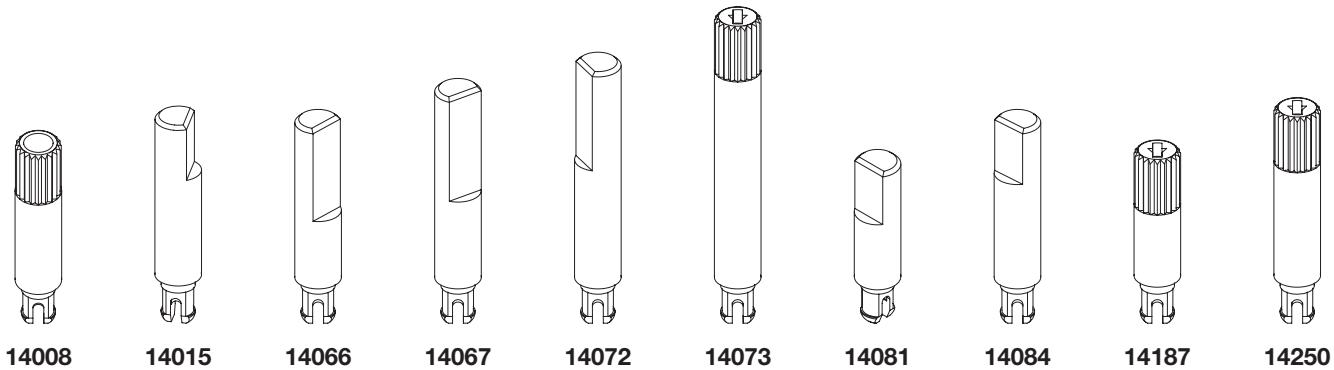

The color of the housing or rotor can be modified. SMD configuration can be available on request.

Shafts

Shafts are black by default. Other colors are available. ACP can also study special shafts. D dimension specified on drawings (end of catalogue).

Shafts	D ($\pm 0,5\text{mm}$)	Shafts	D ($\pm 0,5\text{mm}$)
14008	20,6	14073	35,5
14015	20	14081	15,2
14066	20,6	14084	20,2
14067	24,8	14187	15,6
14072	28,8	14250	22

Terminals

By default, terminals are always straight for the 14mm size, as shown on the "models" menu.

ACP can provide crimped terminals (with "snap in"), to better hold the component to the board prior to soldering.

Adjustment and orientation

Should the shaft need to be positioned differently than shown on this catalogue, please, enclose a drawing.

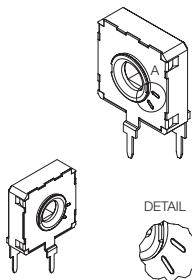

Potentiometers with detents

ACP's "detent" feature (DT) is specially suitable for control applications. Our patented design has improved the features of these potentiometers:

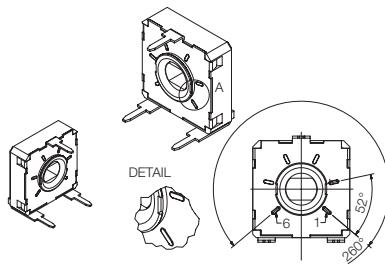

- Longer mechanical life: >10.000cycles.
- More stable electrical parameters.
- Improved reliability and Contact Resistance Variation (CRV).
- Narrower tolerances for detent positioning.

Detents can be lighter or stronger, or even a combination of both feelings. Detents can be evenly distributed along the angle (standard), or tailored to match customers' request. They can also be combined with special tapers: constant value areas, different slopes, etc.

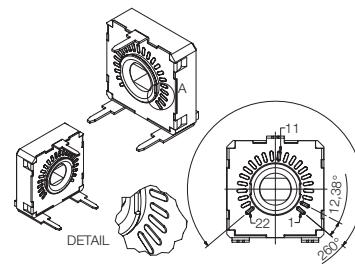

Examples:

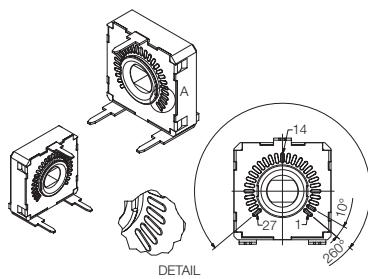

2DT

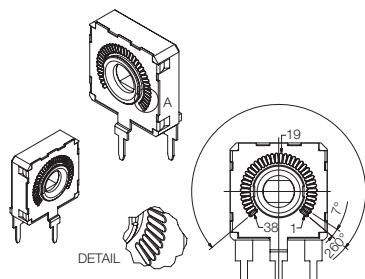

6DT

22DT

27DT

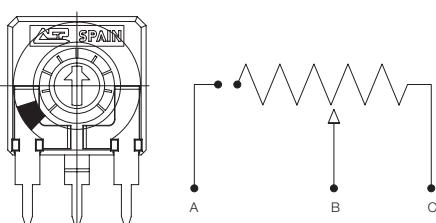

38DT

Potentiometers with cut track

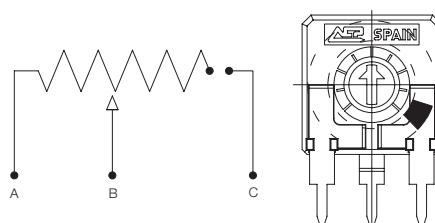

The resistive element in this potentiometer has an area with very high resistive values, resulting in an open circuit. Recommended for lighting regulation.

With cut at the beginning of the track CCW: Off-On.

With cut at the end of track- CW: On-Off. Other positions available on request.

CCW: Off-On

CW: On-Off

MCA14. Electric Specifications

These are standard features; other specifications can always be studied on request.

Range of resistance values Lin (A) Log (B) Antilog (C)	$100\Omega \leq R_n \leq 5M\Omega$ $1\text{ k}\Omega \dots 2,2\text{ M}\Omega$
Tolerance Special tolerances available on request	$100\Omega \dots 1M\Omega \quad \pm 20\%$ $>1M\Omega \dots 5M\Omega \quad \pm 30\%$ Out of range: $R_n > 5M\Omega: \quad +50\%, -30\%$
